

During the weekend of November 14-15, there will be a special symposium to celebrate surveying 150 miles in Lechuguilla Cave sponsored by the NSS. On Saturday, November 14 there will be a dozen presentations on the exploration of the cave, while Sunday, November 15 will feature presentations on the wide-ranging research that has been carried out in this system.

The presentations will be held via Zoom, and registration is required to prevent zoom-bombing, which has disrupted past meetings. The registration is limited to 500 participants and space is quickly filling up. To register, please use the following links:

Lechuguilla Cave
150th Mile
Online Exploration Symposium*
November 14, 2020

The past, current and future exploration of Lechuguilla Cave.
